-

EXPERIENCE

Performance & Reporting Coordinator (Teampact Champion) 2024 Feb-Present

SEMCCYA with The Learning Trust | Remote

- Manage program reporting and performance data across 10 community sites, supporting 5 coaches and monitoring participation for approximately 176 learners.
- Designed and implemented a structured reporting reminder system that significantly reduced backdated sessions records and improved reporting consistency.
- Developed a digital schedule tracker that streamlines coach scheduling, automates reporting reminders, and improves coordination across multiple sites.

Secretary and Communications Officer | Remote**2025 Feb- 2026 May**

Sewelo Maths & Chess Community Youth Academy (NPO), Grahamstown

- Provide governance and administrative support to the Executive Management Committee while coordinating activities across 4 executive stakeholders.
- Coordinate organisational communications with internal and external stakeholders.
- Prepared and managed official meeting minutes, and maintaining and documentation for over 1 year, ensuring accurate record keeping and timely communication.

AI Sills Acceleration Program Candidate**2026 May- 2026 July**

CAPACITI | On-site

- Completed an intensive industry-led AI program focused on Artificial Intelligence, cloud technologies, prompting engineering, and emerging technologies.
- Designed AI-powered solutions addressing real-world business challenges while strengthening analytical thinking, problem solving, and technology consulting skills.

PROJECTS**FlowState AI-** <https://flow-state-zen-87.lovable.app/>

Designed an AI-powered productivity assistant that helps users organize workflows, automate routine tasks, and improve workplace efficiency through AI interactions.

SEMCCYA Schedule Tracker- <https://semccya-schedule-tracker.lovable.app/>

Designed and developed a digital scheduling reminder system supporting coaches across 10 community sites. The system improves scheduling efficiency, automates reporting reminders, and reduces backdated reporting by encouraging real-time session recording.
